Recognized Advantages

You will find that Chamberlain's Cough Remedy has recognized advantages over most medicines in use for coughs and colds. It does not suppress a cough, but loosens and relieves it. It aids expectoration and opens the secretions, which enables the system to throw off a cold. It counteracts any tendency of a cold to result in pneumonia. It contains no opium or other narcotic, and may be given to a child as confidently as to an adult. For sale by all dealers.—Adv.

A GOOD REWARD

Will be given to stockholders and others considering our proposition to have them come "now" or "soon"—as we have one in transit to the smelter, and are being run through the mill at Salina.

A GOOD TRIP

Can be had now, and it will "convince" as nothing else will.

A GOOD OPPORTUNITY

Is this offered the fellow who is determined to apply safe business methods in his investments—and make a "cinch" of his conservative buying of securities.

A GOOD POLICY

Is to insist on being shown, in all "cases"—and applying the "acid" test.

A GOOD COMBINATION

We have culled out the best things and made a "combination" of them, and you ought to see what they are. Mutual, Pioneer, Am. Mines and others that are "really" good—and this combination "bargain" is a world beater.
